

# Château du Tertre

## Animations en Soirée

A PGL Animateur will lead each session. Please ensure there is at least one supervising adult from your group present to support your evening entertainment programme. All activities are suitable for large or small groups and will incorporate a French element such as introductions using basic French vocabulary. The core delivery will be in English.

We are very happy to welcome additional adults to join in with the evening entertainment and any assistance with tasks such as judging, keeping score, assisting individual groups etc. will be very gratefully received.

### Entertainment suitable for all age groups:

#### Soirée Crêpes (Crepe Making)

The group is split into teams and given an introductory presentation with a brief history of crêpes. French language is used in the presentation, encouraging guests to use French when naming ingredients. Each team then makes their own crêpe batter and cooks their crêpes before tucking in!

Planning and Problem Solving: ★★☆☆

#### Le Défi Photo (Photo Challenge)

Guests are provided with a list of challenges to complete and capture in a photo within an allotted time. The harder to capture images win more points and help the winning team. This is a great opportunity for guests to explore the centre on their first night. **Guests will need to use their own phones to participate in this activity.**

#### Passeport au Monde

(Passport To The World)

Each team is given a passport featuring a list of countries. Each country is represented by a flag and these can be found around the centre. Each flag is featured on a plaque, along with a question relating to the country. Guests are tasked with winning equipment to help protect their water balloon from a large fall - equipment is awarded for each correct answer.

#### Les Guerres des Robots

(Robot Wars)

With a focus on teamwork and communication, guests are split into teams and one team member is chosen to be dressed as a robot. The robots are created from cardboard and tape - these are earned through challenges. Teams will then compete against each other in a tournament involving water, to select an overall winner.
