

## Mobile Phones, Cameras and Electronic Equipment

---

### Valuable items

Please be aware that if you bring valuable items such as mobile phones, cameras, tablets, portable games machines, head cams or drones etc. this is at your own risk. PGL accepts no responsibility for damage or loss and mobile phones are not covered by our insurance.

### Photos and video during activities

We understand that many of our guests do like to take photos and videos during activity sessions. In these cases, the Senior Activity Team on centre will check to ensure that the cameras or video equipment do not present any risk to the individual or others taking part in the activity. Where necessary, they will prohibit their use.

- Filming/photography must not distract, or detract from safety
- Filming/photography must not impact on the normal use of hands/limbs in the activity – i.e. not filming with one hand, whilst taking part in a two-handed activity
- 'Selfie sticks' are prohibited
- Where at all possible (remote) - helmet, wrist, chest, boat or bike mounts should be used to minimise impact on user
- The use of any remote mounts must be approved by the centre's Senior Activity Team

### Photos and video around the centre

You may take photos and videos in most areas at PGL centres but please ensure you have the permission of those you are filming or photographing.

**Please avoid taking photos, video or using your phone in proximity to guest accommodation, changing rooms and toilets.**
