Yes.

## Slips & Trips

### Are there any specific hazards identified in the risk assessment programme ? If so, detail.

No.

## Utility Integrity

### Are all utility installations subject to inspection?

Local authority inspections carried out annually for gas, electricity and fire safety installations. Annual PAT of electrical items.

## Traffic Hazards

### Are there any specific Traffic Hazards noted in the risk assessment programme? If so, detail.

Yes, specific risk assessment is held to cover all coach routes used in the programme - low risk.

## Restricted Areas

### Are the out-of-bounds areas appropriately identified? If so, detail.

Centre boundaries are clearly defined. (see note 1)

## Transport

### Are there any integral transport issues evident from the risk assessment programme?

Yes, specific risk assessment is held to cover all coach routes used in the programme - low risk.

## Fire Procedures

### Insert detail of fire drill procedure.

Each new intake has a walk through explanation (see note 1). Full evacuation available on request.

## Emergency Procedures

### Is there an emergency action plan in place, that has been rehearsed?

Yes.

## Note 1

An introductory site tour highlights all relevant hazards to the guests. These hazards are constantly monitored while guests are on site. As a result of this control measure, the risk level is low in all areas noted. During the busy tourist season an external security company bolsters our PGL supervising staff.
